iRoot Technologies

Development Approach

AGILE METHOD

Based on the client requirement & type of the project we prefer to go with the appropriate project execution methodologies & approach. It helps for development of high-quality IT products that meets or exceeds customer expectations, reaches completion within times & cost estimates.

Product Owner

Development

Scrum Master

Daily Sprint

Testing

Design

Planning

Release

Product Backlog

Sprint Backlog

Final Product

When to use

- Few Initial Product & Regulatory Requirements
- Lenient Processes in Place
- High Product Owner Involvement
- Innovative product development from scratch
- Short, Flexible Timeline
- Budget with Wiggle Room

iRoot Technologies

W A T E R F A L L   M E T H O D

The Waterfall methodology is the traditional and the most common methodology used for project management. It follows a sequential, linear process which is why it is often described as a "linear-sequential life cycle model".

REQUIREMENTS

DESIGN

IMPLEMENTATION

TESTING

MAINTENANCE
When to use

- Many Initial Product Requirements & Strict Regulatory Requirements
- Strict Processes in Place
- Low Product Owner Involvement
- Enhancement to an Existing Product
- Fixed & Firm Timeline
- Fixed, Inflexible Budget
